## INTRODUCTION

**M M POLYMERS** is a PET Preform manufacturer founded in 2010 to provide Preforms and custom packaging solutions to customers who appreciate working closely with a capable, reliable and flexible supplier. With a customer centered focus, our goal is to provide best value in PET packaging. This is done by leveraging our capabilities to consistently produce a reliable & quality product. Precise quality control is implemented at every stage of production to ensure that all PET preforms are of the highest standard. This leads to decreased waste, increased quality control, reliable on-time deliveries, and competitive prices. In 2015 the company expanded its Footprints by installing Latest State of the Art ASB machines at Pune and a Depot in Mumbai.

## QUALITY

For us quality means commitment. Our state of the art quality department and lab consist of all latest and fully automatic machineries to assure the quality of each product we produce. Our products are made of top quality raw materials provided by world leaders of the chemical industry and We perform rigorous quality inspections and controls during preform manufacturing. Tests are carried out before production begins, hourly during production, and at the start of the each shift to ensure that each preform makes a Good bottle.

## PREFORM PRODUCTION

Our Preform division uses Standard Operating Procedures (SOP) to insure we deliver quality preforms to our customers.

### Preform checks include:

- Intrinsic viscosity

Determines the strength of the final bottle.

- Physical testing

Measurements of Dimensions (length, diameters, wall-thickness, weight, Runner Point)

- Visual testing

Inspection of the appearance of our Preforms(Scratches, Shrinkage,)

- Color

Wide range of colored Preforms are produced within narrow color tolerances

## WHY US

- All Preforms are made by Latest State of the Art Machineries
- We manufacture a wide variety of preforms in different sizes, weights and colours enabling our customers to produce an aesthetically pleasing package that will grab the consumers' attention
- Our preforms are stable and have low reject rate
- Offer customized preforms
- Keep developing preforms for target markets
- Grade "A" resin is only choice
- Sincere Service and Customer Satisfaction are always the priority

## CORPORATE VALUES

### CUSTOMER FOCUS

Our customers are the focus of everything we do.

### INTEGRITY

We always act with integrity through honesty, fairness and accountability

### PEOPLE

Our employees are the source of our strength - involvement, teamwork & sharing are core values.

### CONTINUOUS IMPROVEMENT

Continuous improvement is essential to creating value – it's how we supply the best value.

The MMPPL Preform library is constantly growing as our business expands into new markets, requiring additional neck finishes and gram weights. We manufacture a wide variety of preforms in different sizes, weights and colours enabling our customers to produce an aesthetically pleasing product that will grab the consumers' attention.

## OUR PREFORM LIBRARY

<b>28MM ALASKA (MADE IN STATE OF THE ART "ASB" MACHINES)</b>				
S.R.NO.	WEIGHT	HEIGHT (mm)	BLOWING CAPACITY	APPLICATION
1	10 Gms	65	100ML TO 300ML	WATER / OIL
